

Recommendation for WeCoach.Team

As part of our Paysafe Sofia Business Skills Labs program, we had the pleasure to partner with WeCoach.Team for the design and delivery of four group workshops under the theme *“ProjectYOU: Design Your Personal and Professional Brand”* in 2023 and 2024.

The program was very well received by our employees. We saw a participation rate of over 85% across the four workshops, with many colleagues highlighting the relevance and practical value of the sessions. According to our post-workshop surveys, 92% of participants rated the workshops as highly engaging and useful, while 89% shared that they felt more confident in shaping their personal and professional brand as a result of the program. WeCoach.Team brought an inspiring and highly interactive approach, combining coaching tools with actionable exercises. Their ability to create a safe and motivating environment encouraged participants to reflect, exchange ideas, and apply the insights directly to their daily work and career development.
